PROFESSIONAL SUMMARY

Computer Science undergraduate with strong foundations in C++, Data Structures & Algorithms and hands on experience building full-stack applications using React.js, Node.js, Express.js, REST APIs and databases. Solved 200+ competitive programming problems and developed AI-driven applications focused on real-world use cases.

EDUCATION

JK Lakshmipat University, Jaipur **Aug 2024 – 2028**
Bachelor of Technology (B.Tech.) – Computer Science **CGPA: 8.4/10**

Kota Career Science Education Centre, Fatehnagar **2024**
Senior Secondary (Class XII) **91.20%**

EXPERIENCE

Anytime Invest **Summer 2026**
IT/Data Intern

- Worked with Databricks and PySpark for data processing and analytics workflows.
- Worked with Delta and Parquet data formats for data storage and transformation.
- Built and tested REST API endpoints using Node.js and Postman.
- Worked with SQL-based data processing and Databricks SQL Warehouse.

TECHNICAL SKILLS

Languages: C++, Python, JavaScript
CS Fundamentals: Data Structures & Algorithms, DBMS, SQL
Web Development: HTML, CSS, React.js, Node.js, Express.js, REST APIs
Databases: MongoDB, MySQL
Data & Cloud: PySpark, Databricks
Tools: Git, GitHub, Postman, VS Code

PROJECTS

Skill Near – AI-Powered Local Service Booking Platform **Aug 2026 – Present**

- Developed a full-stack platform for booking nearby local services such as plumbers, electricians, cleaners and cooks.
- Implemented location-based discovery using [geospatial queries], returning providers within a set radius sorted by distance.
- Built skill verification and rating mechanisms to improve service reliability and user trust.
- Implemented AI-based service matching and an emergency service workflow for urgent local service requirements.
- **GitHub:** github.com/pl743/SkillNear

SkillProof – AI Skill Verification Platform **Jan 2026**

- Developed a platform for evaluating user skills using AI-driven assessments and verifying credentials.
- Built a Web3-based solution focused on data ownership, privacy and resume authenticity.
- Integrated AI-based skill assessment with credential verification.
- **GitHub:** github.com/pl743/SkillProof — **Live:** skill-proof-pi.vercel.app

ACHIEVEMENTS

- **Competitive Programming:** Solved 200+ problems on CodeChef.
- **Hackathons:** Participated in 2 hackathons and developed technology-based solutions.
- **Academic Projects:** Completed multiple AI and web-based projects focused on real-world problems.

CERTIFICATIONS

- **Database Management System – Part 1** – Infosys Springboard Sep 2025 – Nov 2025
- **Red Hat System Administration I (RH124 - RHA) – Ver. 10** Sep 2025 – Nov 2025
